Birdbox

WHO IS LIVIT?

Specialist in products for adventure tourism

Livit, based in Western Norway, which developed Birdbox™, specializes in the design, construction and sale of products aimed at adventure tourism.

Birdbox™ is designed by the renowned designer Torstein Aa. With our production partner with over 70 years of experience in Norwegian shipbuilding technology, we offer a high-quality solution for adventure cabins.

WHAT IS BIRDBOX?

A cabin created for unique nature experiences

Birdbox™ is a minimalist Norwegian-designed cabin created for unique nature experiences, where comfort meets minimal environmental impact.

Birdbox™ aims to bring people as close to nature as possible while creating the comfort of a hotel room.

With simple installation solutions and no restrictions on location, Birdbox™ gives guests a seamless experience of being one with nature, while providing landowners and tourism operators with a profitable and sustainable rental model.

Adventure tourism is growing at an explosive pace

A spectacular nature experience

Adventure tourism is growing rapidly. Travelers are looking for unique accommodations that offer more than just a bed – they want an experience. Birdbox™ is designed for just that.

Easy installation with minimal environmental impact

Birdbox™ is designed for easy installation, minimal maintenance and maximum flexibility. Birdbox™ comes fully furnished and with custom columns for installation. As standard, it is prepared for power connection, but can also be supplied with an off-grid solution with solar cells.

A sustainable investment with high rental value

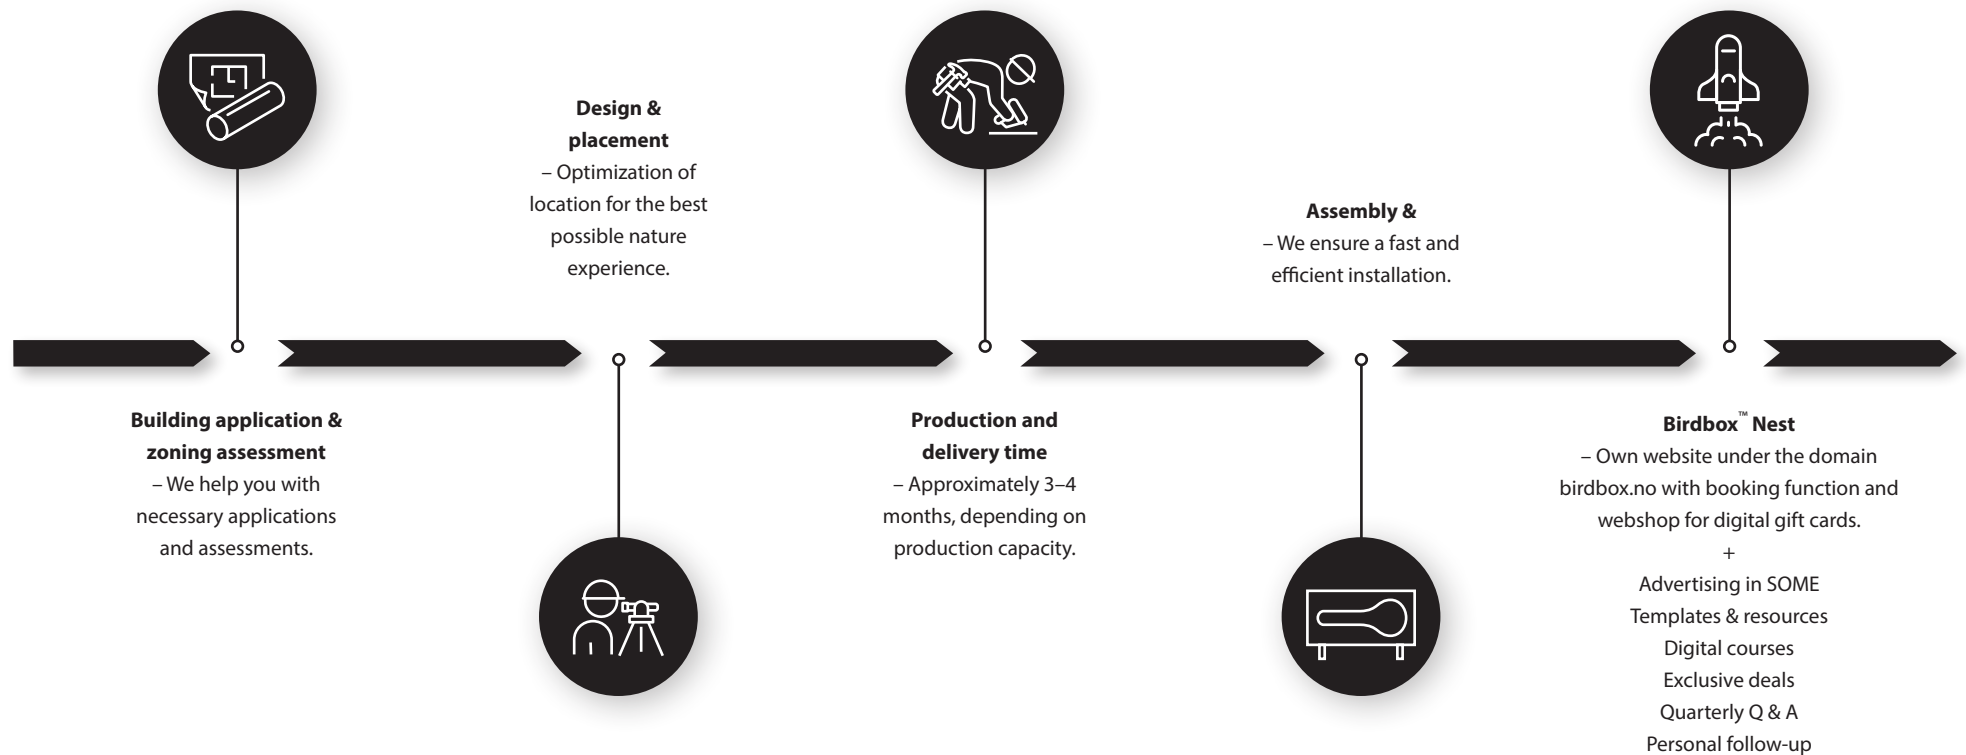

Built from carbon fiber composite that requires minimal maintenance and offers no restrictions on location. Can be installed using a crane truck or helicopter, which gives great flexibility in choosing a location. Birdbox™ Toilet is supplied as a standard off-grid solution, adapted to natural locations.

#Birdboxing

We assist you throughout the entire process from building application to installation and completion. In addition, we offer all Birdbox™ owners the opportunity to become part of Birdbox Nest, a marketing resource tailored to the adventure tourism market.

WHAT DO WE DO?

From A to Z... plus a little more

- A turnkey product
- Made for all weather conditions.
- No restrictions on location.
- Easy assembly with crane truck or helicopter.
- Virtually maintenance-free.
